Dr Martyn Clayton, Dr Zoe L Stevenson

Medical Students

This Practice is actively involved with the teaching of undergraduate Medical Students from Dundee, Aberdeen & St Andrews Universities.

In supporting this educational process you may on occasion be seen by or in the presence of a Medical Student. This will apply to both GP and Nurse led consultations. You will always be informed of this when making an appointment and your verbal consent will be sought prior to the start of your consultation.

If you do not wish to participate in this scheme and be seen in the presence of a Medical Student please do not hesitate to inform reception. Further information on the scheme may be obtained from the Practice Manager.

Your cooperation in the advancement of Medical Education is appreciated.
